

Experience Tour „Black to Black“ - the beginning of the Danube

Landschaftspark
Junge Donau

Baden-Württemberg

STAATSMINISTERIUM

This project is sponsored by the State Ministry Baden-Württemberg

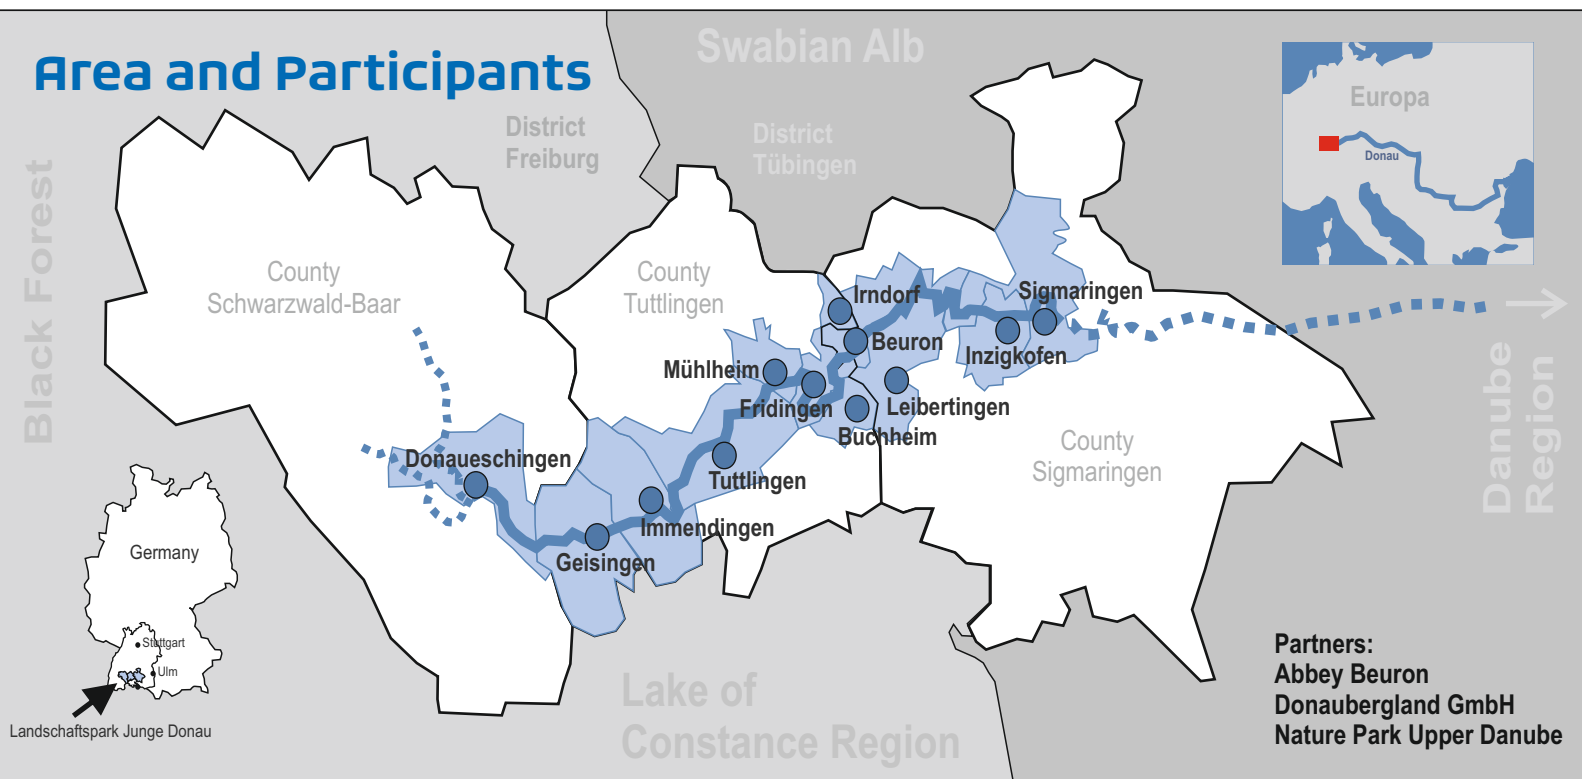

The Experience Tour „Black to Black“

The tour intends to experience the beginning of the Danube and to get an idea of the Landschaftspark Junge Donau (Landscape Park Young Danube). All participants of the Annual Forum are welcomed to take part. Especially welcomed are the participants from the Danube Delta Region, as one idea of the Landschaftspark Junge Donau is the idea of "Black to Black": the cooperation and exchange of the Black Forest Danube Region and the Black Sea Danube Region.

The Landschaftspark Junge Donau

The Landschaftspark Junge Donau is a community of interest along the Danube from Donaueschingen until Sigmaringen, the first 100 Kilometers along the Danube. The partners want to coordinate and work together for future projects along the Danube. The goals are the improvement of public transport, finding of joint solutions for the demographic change, improvement of landscape development, nature and access to the river, connection of artistic and cultural events and cooperation with educational institutions.
